Have you ever seen a magician do a cool trick and wonder how it was done? Here's your chance to find out! Just follow the instructions inside and soon you'll be amazing people with incredible magic.

From Booklist The Kids Guides series offers fully illustrated introductory books on a broad variety of topics. The many colorful photos, often smaller than two-inch squares, show young people demonstrating the activities described in the text. Charney, a professional magician, opens Magic Tricks with three simple rules and 17 easy-to-find props for novice performers. He presents 10 magic tricks by breaking each one down into smaller steps of preparation and

performance. In the photos, a boy or girl demonstrates each numbered step. Charney's detailed instructions and tips help ensure that, with plenty of practice, young magicians can baffle their audiences. These slender titles present topics in a brief, practical manner that readers may find helpful. Grades 4-6, --Carolyn Phelan
