**From Brand: Klutz : The Klutz Book of Magic** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Klutz Book of Magic:

received in good condition, however NONE of the props that are supposed to come with a new book, were included. Very disheartening to my budding 7-year old magician to read "use the enclosed (item)" only to not have the item ever included. VERY misleading.....1 of 1 people found the following review helpful. intro to magicBy Purple PlatypusI bought this book for my 8 year old daughter after she came across a copy at school and enjoyed learning the tricks. It's a good book for her to learn and practice tricks on her own before showing them to us. We were pleasantly fooled by the coin trick she performed!0 of 0 people found the following review helpful. I'm very disappointed and cannot give this as a gift as I ...By C. HavensThis book was supposed to be new, it is old and very used and none of the magic props were included. I only bought this book because it stated it was new. I'm very disappointed and cannot give this as a gift as I had intended.

Presto! The best magic book ever gets even more amazing. Although The Klutz Book of Magic is a beginner's volume, it is not filled with beginner magic. Maybe that's the secret of its success. This is real magic and these are real tricks, the kind you're not supposed to give away. We had to fight to get them and you, gentle reader, will have to take the Magician's Won't-tell Oath on the first page or we won't let you in the book. Comes with a magician's five-piece prop kit. This book includes a latex square that contains Natural Rubber Latex which may cause allergic reactions.Comes With: silk scarf (imported), chrome ring, nylon string, 2 top-secret props Create wonderful things Be good Have fun
