**Prima Games : The Legend of Zelda: Tri Force Heroes Collector's Edition Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Legend of Zelda: Tri Force Heroes Collector's Edition Guide:

2 of 2 people found the following review helpful. Not much help with challenge modes By Jessica Tennant This DOES NOT give much help with the challenge modes. It has brief descriptions of the different types of challenges with a few general tips (e.g. move quickly on time challenges), but no real directions or tips for any specific challenge. It is very good for figuring out which outfits to use, where materials are and more in depth explanations of the outfits. It is also very good for your basic walkthrough, telling you how to get through all regular levels. I took a star off for not helping much with the challenge modes, and if I could I would take 1/2 star off for not having gilded pages like previous Zelda collector's edition guides. I do like the screen cleaner though! It's very pretty. 10 of 11 people found the following

review helpful. Prima Games dropped the ballBy Christopher McKinziePrima Games really dropped the ball on this release. Not only does it not have the text on the spine that would match entire rest of the Collectors Edition series of guides, but they also chose not to do the nice cover and gold tipped pages. Quite disappointed. :(0 of 0 people found the following review helpful. Not complete anymoreBy Wadev3Good book like any guide, I was not concerned with the non-foil pages like others were on the hardback so I got this one. The only problem I have is that the information does not include the update to the game which happened literally a month or two later. I would have rather waited to buy the book for that content to be in there. Yes I know, it is updated on the eguide, but I bought the book for a reason, I want a paper copy.
