Unknown : The Little Black Book of Beatles Songs for Ukulele before purchasing it in order to gage whether or not it would be worth my time, and all praised The Little Black Book of Beatles Songs for Ukulele:

8 of 8 people found the following review helpful. Wonderful book!By JerryWithaJ195 Beatles songs with Ukulele chords! I bought the guitar version when it first came out, but the uncommon chords make sight reading for the uke somewhat difficult. This is everything you could hope for in a uke version. The chord diagrams are right at the top to

review before starting in. The binding is what you'd find in a hardback book. Bend it as flat as you;d like. You're probably not going to break it. The book is laid out to all but eliminate page flipping. Songs that take up two pages start on the left-hand page. The only time you have to flip is for the very few songs that take up 3 pages.4 of 4 people found the following review helpful. Great little bookBy Scott MeadGreat little book ... sized just right for taking anywhere. The spine is a bit stiff, so it doesn't want to stay open to your selected page, but I assume this will lessen over time, and probably means it's going to be quite durable. The songs and chord arrangements are offered in the original keys, except for a few, which are noted with required transposition. Some of the chords seem to be hastily chosen (as though quickly converted from the same-name guitar chord without actually testing), and could be substituted with a more playable/better-voiced alternate, but for the most part, they're just right. With only a few exceptions, all songs are printed such that no page-turning is required. That's a much-appreciated feature!The only down side I can see is that there is no printed melody, as would generally be the format with a fake book (chords/melody/lyrics). If you don't know the melody, you have to go find a source to learn it. Not a huge problem ... I knew this before I purchased it, so it doesn't factor into my rating, but it would be so much better with the melody included.It's a fun book to have if you like the Beatles music ... the price is right, and it fits in just about any bag, Can't go wrong here ...0 of 0 people found the following review helpful. Beatles on Ukulele!By TeleBobWow! Very cool to have these Beatle tunes summed in a single book for the uke. Still working through the pages, but I'm enjoying all of it.
