By Helaman Scow I do wish i had done more research before buying the product for it is what it says it is but currently is too hard for me, i wish i had found something more suited towards me, even if it was the Broadway version i think i would have enjoyed it a bit more than what i received. however if this is what you are looking for than i do highly suggest it because it is really a great product, it just doesn't fit what i was needing/looking for. 0 of 0 people found the following review helpful.
