By N M or D M This book is very well organized, with sections on cards, coins, close-up magic tricks, etc., as well as large stage presentations. It goes into meticulous detail about the techniques for successfully executing each trick, complete with a series of clear color photographs showing each step along the way. This is a most excellent book. 1 of 8 people found the following review helpful. Disappointed. By Customer I purchased this book for my Grandson's birthday. It was listed as used but in excellent condition. After the purchase I was contacted by the seller. I was told that after inspecting the book, it appeared that the cover was more worn than originally thought, and the seller gave me the option to cancel the order. I appreciated the seller's honesty, and decided to go ahead with the purchase, since he

described the cover as having some minor wear. Although the inside was in like new condition, the outside cover was much more worn looking than anticipated. I am sorry I purchased this item. It was embarrassing to give as a gift, but since I had it shipped directly to my grandson, the deal was done. I should have cancelled my order and looked for a book in better condition. 1 of 11 people found the following review helpful.
