She loved it so much and shares the calendar with her students as she turns each page to see the new month! 4 of 5 people found the following review helpful. Stay in Touch with Math By Tim Giles These math problems are mostly easy, high school stuff, but there's always some each month that refer me to a textbook. I don't do them daily, but in spurts. If I start to doze off while reading, a few math problems will freshen me up. Theoni Pappas is a jewel. This is my fifth math calendar 3 of 5 people found the following review helpful. Exactly as advertised. By Moggi It is exactly what it says it is. If you enjoy Math then it's a nice calendar.

Each day of every month of this wonderful calendar has its own math problem, whose solution is the date. The fun lies in figuring out how to arrive at the answer, and possibly discovering more than one way to do it. In addition to the daily puzzles, each month features an intriguing math topic, such as Are Plants Computing? More than just a place to make note of birthdays and dentists appointments, The Math Calendar demystifies the subject, making it approachable and even downright fun.
