**Arthur Conan Doyle : The Memoirs of Sherlock Holmes, Volume 1 (BBC Radio Presents)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Memoirs of Sherlock Holmes, Volume 1 (BBC Radio Presents):

By Joe from MoThis is part of the excellent Clive Merrison portrayal of Sherlock Holmes. Though I wouldn't necessarily count this set among the best in that series, it's still a treat for those who enjoy full-cast audio dramatizations.

By A CustomerThis audio production is extremely disappointing. Most glaring is the fact that the actors portraying Holmes and Watson possess very similar voices, making it impossible to tell which one is talking unless identified by name--a major distraction.  
Second, Sherlock Holmes is portrayed as a young and eager man; more annoyingly, he is clearly impressed with himself. Holmes is not the brooding, dark character I have come to enjoy both from the books themselves as well as the superb television portrayal from the BBC series. I really thought a Sherlock Holmes audio tape would be a "no-brainer", but I could not bring myself to listen after the first story (Silver Blaze)

Full-cast dramatizations bring to life four classic mysteries featuring the inimitable Sherlock Holmes--"  
Silver Blaze," "  
The Yellow Face," "  
The Stockbroker's Clerk," and "  
The Gloria Scott."
