J.R.R. Tolkien was a master of riddles and wordplay and fans of his towering masterpiece will enjoy this stunning

journey through Middle-earth, where curiosities and stimulating puzzles await them at every turn. Gorgeously illustrated, and rich in references to the history, lore, land, and inhabitants of Tolkien's elaborately constructed world, this collection enchants even as it calls for strong solving skills and keen logic. And, like the Fellowship's quest, the enigmas here become increasingly tricky, thrilling, and challenging as they move from the relative safety of Book One to the dangerous adventures of Book Three.

About the Author Tim Dedopulos is the bestselling author of many acclaimed puzzle books as well as various books on art, esoterica, and historical subjects. These include *The Medieval Puzzle Collection*, *The Sherlock Holmes Puzzle Collection*, *The Great Global Treasure Hunt on Google Earth*, *Kabbalah*, *Wizards: An Illustrated History* and *Oriental Mind Games* (all published by Carlton).
