The one other reviewer is the author??By Liz GoodmanThe puzzles are fine - actually, even the "easy" ones are challenging, which is nice. HOWEVER, one of the biggest selling points to this is "plenty of grid space". Where? I see no grid space, and the puzzles themselves are barely bigger than regular sudokus. Because this is the sole reason that I put this item on my wish list (where it was bought for me) was because of the grid space, I was sorely dissatisfied.I also think it is unethical for the author to review his own product.
