D. Kern Holoman : **The Nineteenth Century Symphony (Studies in Musical Genres and Repertories)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Nineteenth Century Symphony (Studies in Musical Genres and Repertories):

Explores the styles, forms, and performance practices that characterized the symphonic repertoire from Schubert through early Mahler, during which time composers struck out in many directions to exploit the development of modern instruments with their extended ranges and colorful palette. The 15 ess
