David Haviland : The Not-So-Nude Ride of Lady Godiva: Other Morsels of Misinformation from the History Books before purchasing it in order to gauge whether or not it would be worth my time, and all praised *The Not-So-Nude Ride of Lady Godiva: Other Morsels of Misinformation from the History Books*:

It is said that history is written by the winners. However, the winners aren't always the best historians. Enter David Haviland, to set the record straight. In his quirky, inimitable style, Haviland separates fact from fiction regarding some of history's most well-known people and events, such as: Lady Godiva: By far, history's most famous nudist equestrian. But how nude was she, really? And how did this same legend give rise to the term Peeping Tom? The Boston Tea Party: What was the cause of this famous party that wasn't really a party? (Hint: If you guessed a rise in taxes, you're dead wrong!) World War I: How did a directionally challenged chauffeur spark the Great War? Queen Victoria: Nowadays, the word Victorian is synonymous with stuffy prudishness. But would a prude pose nude for a provocative portrait, or become close with a young Indian servant? In *The Not-So-Nude Ride of Lady Godiva*, Haviland untangles fallacy, farce, and misrepresentation of historic proportions. The end result is a wholly fascinating, highly educational compendium of historical folly that will entertain readers young and old!
